Mr. Robert L. Nardelli  
Chairman and CEO  
Chrysler LLC  
1000 Chrysler Drive  
Auburn Hills, MI 48326

Dear Mr. Nardelli:

The Domestic Policy Subcommittee of the Oversight and Government Reform Committee is examining the implications and circumstances of the Chrysler bankruptcy. On a conference call on April 30, 2009, Members of Congress were assured that there would be no permanent Chrysler plant closings or job losses under the terms of Chrysler's pending bankruptcy. When the terms of the bankruptcy were released on May 1, 2009, plants in Michigan, Missouri, Wisconsin, and Ohio were targeted for closure.

In order to assist the Subcommittee with its investigation, I am writing to request the following documents:

- 1) All external communications, including transcripts of conference calls, that conveyed information relating to the future status of Chrysler company plants in Michigan, Missouri, Wisconsin, and Ohio between December 2008 and the present.

The Oversight and Government Reform Committee is the principal oversight committee in the House of Representatives and has broad oversight jurisdiction as set forth in House Rule X. An attachment to this letter provides information on how to respond to the Subcommittee's request.

Mr. Robert L. Nardelli

I request that you provide these documents as soon as possible, but in no case later than **5:00 p.m., Friday, May 29, 2009.**

If you have any questions regarding this request, please contact Jaron Bourke, Staff Director, at (202) 225-6427.

Sincerely,

Dennis J. Kucinich

### **Domestic Policy Subcommittee Document Request Instruction Sheet**

In responding to the document request from the Domestic Policy Subcommittee, Committee on Oversight and Government Reform, please apply the instructions and definitions set forth below.

#### **Instructions**

1. In complying with the request, you should produce all responsive documents in your possession, custody, or control.
2. Documents responsive to the request should not be destroyed, modified, removed, transferred, or otherwise made inaccessible to the Subcommittee.
3. In the event that any entity, organization, or individual denoted in the request has been, or is currently, known by any other name than that herein denoted, the request should be read also to include them under that alternative identification.
4. Each document produced should be produced in a form that renders the document capable of being copied.
5. When you produce documents, you should identify the paragraph or clause in the Subcommittee's request to which the documents respond.
6. Documents produced in response to this request should be produced together with copies of file labels, dividers, or identifying markers with which they were associated when this request was issued. To the extent that documents were not stored with file labels, dividers, or identifying markers, they should be organized into separate folders by subject matter prior to production.
7. Each folder and box should be numbered, and a description of the contents of each folder and box, including the paragraph or clause of the request to which the documents are responsive, should be provided in an accompanying index.
8. It is not a proper basis to refuse to produce a document that any other person or entity also possesses a nonidentical or identical copy of the same document.

9. If any of the requested information is available in machine-readable or electronic form (such as on a computer server, hard drive, CD, DVD, memory stick, or computer backup tape), you should consult with Subcommittee staff to determine the appropriate format in which to produce the information.
10. The Committee accepts electronic documents in lieu of paper productions. Documents produced in electronic format should be organized, identified, and indexed electronically in a manner comparable to the organizational structure called for in (6) and (7) above. Electronic document productions should be prepared according to the following standards:
  - (a) The production should consist of single page TIF files accompanied by a Concordance-format load file, an Opticon reference file, and a file defining the fields and character lengths of the load file.
  - (b) Document numbers in the load file should match document Bates numbers and TIF file names.
  - (c) If the production is completed through a series of multiple partial productions, field names and file order in all load files should match.
11. In the event that a responsive document is withheld on any basis, you should provide the following information concerning the document: (a) the reason the document is not being produced; (b) the type of document; (c) the general subject matter; (d) the date, author, and addressee; and (e) the relationship of the author and addressee to each other.
12. If any document responsive to this request was, but no longer is, in your possession, custody, or control, you should identify the document (stating its date, author, subject and recipients) and explain the circumstances by which the document ceased to be in your possession, custody, or control.
13. If a date or other descriptive detail set forth in this request referring to a document is inaccurate, but the actual date or other descriptive detail is known to you or is otherwise apparent from the context of the request, you should produce all documents which would be responsive as if the date or other descriptive detail were correct.
14. This request is continuing in nature and applies to any newly discovered document. Any document not produced because it has not been located or discovered by the return date should be produced immediately upon location or discovery subsequent thereto.
15. All documents should be bates-stamped sequentially and produced sequentially. In the cover letter, you should include a total page count for the entire production, including both hard copy and electronic documents.

16. For paper productions, four sets of documents should be delivered: two sets to the majority staff and two sets to the minority staff. For electronic productions, one dataset to the majority staff and one dataset to minority staff are sufficient. Productions should be delivered to the majority staff in B-349B Rayburn House Office Building and the minority staff in B-350A Rayburn House Office Building. You should consult with Subcommittee staff regarding the method of delivery prior to sending any materials.
17. Upon completion of the document production, you should submit a written certification, signed by you or your counsel, stating that: (1) a diligent search has been completed of all documents in your possession, custody, or control which reasonably could contain responsive documents; and (2) all documents located during the search that are responsive have been produced to the Subcommittee or identified in a privilege log provided to the Subcommittee.
